

GARBAGE OR SLOP, THAT IS QUESTION

Health Department and K. C. Wallie Bakers Have Row.

LABEL CANS 'HOG FEED'

Restauranters Take Hint of Judge and Create Technical Problems.

What is the difference between garbage and hog feed? The city health department contends there is none so far as the appearance and contents are concerned. Owners of the Kansas City waffle houses in turn contend that while there may be no distinction between the words "hog feed" painted on open garbage cans and the contents of the cans, the health department and gives them the right and privilege to dispose of the garbage as they see fit.

Judge's Hint Taken. Owners of the eating houses protesting several weeks ago against the city's action in allowing the city garbage collector to haul their garbage away, because they wanted it to feed to their own hogs. To carry out their claim of priority they went into the district court and obtained an injunction against the city. The case came to trial on November 5, when Judge Owen Owen dissolved the injunction and ruled that the city has the right to collect or dispose of garbage as provided by ordinance. At the same time the judge intimated that if the city might not be able to exercise its ordained authority.

So the eating house owners took his advice, placing the labels on the cans. Undaunted, the city health department continued to haul the garbage over their protests. On Wednesday the owners refused to allow the garbage collector to empty their cans. The same morning W. W. Bishop, C. W. Bishop, Raymond Bell, H. E. Jewett and Harry Powers, all interested in the waffle houses, were placed under arrest and released on \$50 bonds for appearance in municipal court Thursday afternoon.

Want Another Test. The five men have declared they will make another test case—that if they are convicted in municipal court they will appeal to the district court to prevent the city from interfering with their plans of garbage disposal. P. L. Long, chief sanitary inspector for the city, asserted Wednesday that the city health department is willing that such procedure be taken, so there may be no more doubt of its authority.

Long and Dr. L. C. Presson, city superintendent of health, contend that garbage by any other name would have the same appearance

Williams Goes to Pen for a Year and a Day for Chicken Stealing

C. Williams, a white man arrested by the police and charged with stealing chickens, was sentenced to serve one year and one day in the state penitentiary by Judge Redmond S. Cole in district court Wednesday, after the prisoner had pleaded guilty to the charge at his arraignment before Justice H. J. Gray. Williams admitted he stole chickens from W. L. Gholston, 1182 South Rockfort avenue, and H. H. Rowe, 1193 South 24th avenue, the night of October 26, and the court passed sentence in each case, the term to run concurrently.

and odor—that garbage is garbage—regardless of any special designation it might carry, and that the city has the same privilege to collect so-called "hog feed" but it has to collect plain, ordinary garbage.

So, in the words of a famous general, "it will be fought out along this line if it takes all winter."

A Simple, Safe, Inexpensive Method That Clears Out the Head, Nose and Throat.
